

Turn It Up Mobile Application

Turn It Up (TIU) is an ongoing campaign put on by NEED2, Victoria's suicide prevention centre. The campaign is designed to begin the de-stigmatization of conversations about suicide within our culture. The TIU application is poised to bring this campaign into the mobile sphere by allowing youth to collaboratively make some noise about suicide prevention!

By highlighting the ongoing tragedy of youth suicide and the silence that fosters it, we hope our work will help make a difference.

Team Members

Ryan Farrell

He is a Victoria native, and will be receiving his diploma in Computer Systems Technology this year. After the program he will be pursuing a career in the industry - most likely mobile development.

Roles: Team lead, coder, documentation, designer.

Hobbies: Reading, movies and video games.

Jesse Seginowich

He has lived in Victoria all his life, and is currently in his second year of the Computer Systems Technology program at Camosun College. After he graduates, he hopes to find a career in game design.

Roles: General coding and commenting of the code.

Hobbies: Video Games

Sinan Soykut

After moving here from Calgary a few years ago, Sinan Soykut made his home in Victoria and is set on sticking around. Once he's finished at Camosun he plans to find full-time work, while engaging in professional development in the off hours.

Roles: Coding for the pushing/pulling of data from the database and designing the application user interface.

Hobbies: Arts and crafts

Pairin Mason

She is currently in her second year of the Computer Systems Technology program at Camosun College. After graduation she plans to pursue her career in web-based application development in Victoria.

Roles: coding, documenting the project requirements, and testing.

Hobbies: Thai cooking, Reading

The TIU team would like to thank the Camosun College Computer Systems Technology Department and the NEED2 non-profit organization for sponsoring our project. We sincerely hope that the TIU application will play a big role in helping NEED2 break down the stigma surrounding conversation about suicide and help prevent suicide among youth.
